

Mohammed Mohtesham Ahmed Soherwardi

21073 Hamburg, Germany | (+49) 1785794451 | mohammed.soherwardi@tuhh.de | [LinkedIn](#) | [Portfolio](#)

Profile: Dedicated Mechanical Engineer with a strong interest in **Robotics** and **Mechatronics**. Practical experience working with 6-axis robots, mobile robots, and their integration and testing. Open to new challenges and relocation within Germany – ready to contribute my knowledge to a forward-thinking team.

EXPERIENCE

10/2025 – 01/2026
Hamburg, Germany

Tutor for Construction Informatics

Institute for Digital and Autonomous Construction

- I taught **Java** in German to first-year bachelor's students at the Hamburg University of Technology.
- I taught the fundamentals of object-oriented programming and database management.

11/2024 - 06/2025
Hamburg, Germany

Tutor for Robotics / Student Research Assistant

V Robotia Robotics & VR

- Taught **robotics**, **programming**, and **electronics** in German to students aged 5 to 19, promoting STEM skills.
- Development and optimization of robotic components using SolidWorks and 3D printing, ensuring precision and quality.
- Supported the project manager in organizing events for students and assisted them in developing **mobile robots**.

08/2021 - 02/2022
Karnataka, India

Graduate Engineer Intern

Supreme Diesel Industry (Bosch),

- Performed detailed engine performance analyses using MS Excel to document key performance indicators such as brake power, fuel efficiency, and calibration accuracy.
- Assembled, disassembled, cleaned, calibrated, and inspected pumps to ensure optimal performance.

EDUCATION

10/2023 - Present

Master of Science, Mechanical Engineering and Management | Technische Universität Hamburg

Focus: Robotics, Construction Robotics, Applied Design Methodology in Mechatronics, 3D Printing

Research Project: Development of a **ROS2 - Driven** Drawing Simulator for a Painting Robot

08/2017 - 06/2021
Karnataka, India

Bachelor of Engineering, Mechanical Engineering | Poojya Doddappa Appa College of Engineering

Bachelor's Thesis: Development of a Smart Walking Stick for the Visually Impaired People

SKILLS

Programming

- ROS 2 (Proficient)
- Python (Proficient)
- Java (Proficient)
- C# (Intermediate)

Tools & Technologies

- Microsoft Office/Office 365
- Git / GitHub

Simulation Tools

- Computer Vision
- 3D Printing

Language Skills

- Gazebo
- RViz

- English – Fluent(C1)
- German – Proficient (B2)

PROJECTS

10/2025 – 01/2026

Construction Robotics: Quadruped Robot Dog Ensuring Safety Equipment Compliance on Construction Sites.

05/2025 – 11/2025

Research Project: Development of a ROS 2 Driven Drawing Simulator for a Painting Robot

04/2024 – 08/2024

Applied Design Methodology in Mechatronics: Development of a Robot that Non-Invasively Scans Soil for Foreign Objects Using Electrical Impedance Measurements

CERTIFICATIONS

C & Embedded C

AutoCAD 2D for Mechanical Engineers

CATIA (Product Design Engineer)

Python – Udemy (ongoing)

HOBBIES

- Fitness Training
- Playing Football
